**Subject:** FW: 1526 - Tetra4 Powerline BA - Pre-Application Meeting

Good day Qaphela,

We are currently experiencing challenges with our server, the internet is up and down continuously so it is difficult to schedule the for Teams meeting.

Kind regards,  
Grace Mkhosana  
DESTEA

Good day Disebo, as our email below refers.

We would like to arrange for a pre-application meeting at your earliest convenience. Please advise on a possible meeting date and time in this regard.

Looking forward to hearing from your department.

Kind regards,

**QAPHELA MAGAQA**

**Subject:** 1526 - Tetra4 Powerline BA - Pre-Application Meeting

Good day Disebo,

As per our email correspondences below, EIMS has been appointed as an independent EAP to lodge an application for environmental authorisation on behalf of Tetra4 (Pty) Ltd and your department has been identified as the competent authority for this project.

**A brief project description is as follows:**

Tetra4 (Pty) Ltd wishes to construct two new dedicated overhead powerlines as part of the proposed Cluster 2 Gas Production Project which is currently being applied for under their existing Production Right (Ref: 12/4/1/07/2/2) with an application process underway with the Petroleum Agency SA (PASA) and the Department of Mineral Resources and Energy (DMRE). Once the proposed powerlines are constructed, they will be ceded/handed over to Eskom to manage during the operational phase and therefore this separate application process for the powerlines is being undertaken (powerlines are excluded from the ongoing PASA/DMRE application). The two new proposed powerlines are as follows:

1. A new 132 kV dual loop-in-loop-out (LILo) powerline of approximately 5.5 km in length to the Eskom Theseus-Oryx 132 kV Line. The proposed powerline will feed into a new 40 MVA substation at the LNG/LHe Plant to provide the plant with the operational power requirements.
2. A new 33kV powerline to connect a gas compressor station complex to the existing 33 kV Beatrix powerline. The 33kV powerline will be approximately 1 km in length.

Kindly note that the Tetra4 Virginia Gas Project Phase 2 has received SIP status (attached) and therefore as per this status, all associated infrastructure including these powerlines are regarded as SIPs.

EIMS would therefore like to arrange a pre-application meeting with your department to discuss the proposed application detailed above. Please indicate your availability in this regard.

Kind regards,

QAPHELA MAGAQA

**Sub-Directorate: Environmental Impact Management**

Good day,

Environmental Impact Management Services (Pty) Ltd (EIMS) has been appointed by Tetra4 as the EAP for undertaking a new EA application for the construction of a powerline project. We have identified the Free State DESTEA as the competent authority for this project and would like confirmation that the attached application form is the correct application form (sourced from your website). Furthermore, we would like to request a copy of the form in Microsoft Word format.

Your assistance will be highly appreciated.

Kind regards,

**QAPHELA MAGAQA**
