Subject: RE: Request for Pre-Application Meeting for the Proposed NuVest Chemical Plant in Meyerton, Gauteng

Good Day Erick,

Noted with thanks. We assume that the EAPs preliminary assessment of triggered activities and required specialist studies is correct at this stage. However, we also wanted the Department to outline the online submission process including how we can obtain the latest application form as the website (<https://www.gauteng.gov.za/Services/GetServices?serviceId=CPM-001543&taxonomyItemId=CPM-001000&isFromDepartment=true>) does not allow one to download the EIA Application Form. Also, if we submit online, but provide hardcopies as well as indicated on the online platform (refer to the attachment).

We would appreciate your swift response.

Subject: RE: Request for Pre-Application Meeting for the Proposed NuVest Chemical Plant in Meyerton, Gauteng

Good Day Erick,

NuVest Recovery Solutions (Pty) Ltd is a South African company that was founded in 2017. The company specializes in the development and implementation of technologies and chemistries for the sustainable recovery of resources. NuVest Recovery Solutions' products and services help businesses to reduce their environmental impact, save money, and improve their returns (NuVest Recovery Solutions, 2019). NuVest Recovery Solutions (hereafter NuVest) proposes to develop a chemical plant located on 110 Batoliet Road in Meyerton, within the Sedibeng District Municipality, Gauteng Province. The plant will have a capacity of 30 tonnes of chemicals per day. The plant will specialize in the production of sodium hydroxide (NaOH), chlorine (Cl₂), and hydrogen (H₂) through the chlor-alkali process. These three intermediate products will then be further processed to produce hydrochloric (HCl) acid, bleach (12-13% sodium hypochlorite solution), and caustic lye (47% solution in water).

The proposed chemical plant development is situated in Meyerton within an area consisting mainly of built-up areas (urban residential, urban informal and urban industrial), cultivated land and grassland. Waterbodies, wetlands, mines and quarries and forested land are also located in the extended surrounding areas. The larger area surrounding the proposed plant is classified as rural in nature. The proposed development site has been significantly transformed with vegetation reduced to a few Eucalyptus trees and Wattle trees noted along border of property. Please refer to the attached Site Sensitivity Verification Report.

We would like to confirm with the Department the following:

1. The triggered listed activities:
 - Environmental Authorisation (EA) in accordance with the NEMA- Listed activity/ies:
 - GNR984 Listing Notices 2; Activity 4 and 6
 - Atmospheric Emissions Licence in accordance with the requirements of the National Environmental Management: Air Quality Act (Act 39 of 2004):
 - Category: 7; Sub-Categories 7.1, 7.2, and 7.7.
2. Specialist Studies Required based on the DFFE Screening Report (attached) and EAP's opinion:
 - Terrestrial Biodiversity Compliance Statement;
 - Aquatic Biodiversity Compliance Statement;
 - Air Quality Impact Assessment; and
 - Major Hazard Installation Risk Assessment.
3. Assistance GDARD's Online Submission Process
 - Obtaining the latest application form; and
 - Submitting a New Application.

We would appreciate your swift response so we either schedule the pre-application meeting or continue with the Draft Scoping Phase.

Subject: Request for Pre-Application Meeting for the Proposed NuVest Chemical Plant in Meyerton, Gauteng

Good Day Steven,

Impact Management Services (Pty) Ltd. (EIMS) has been appointed by EcoPartners (Pty) Ltd on behalf of NuVest Recovery Solutions as the Environmental Assessment Practitioners (EAPs) to assist with undertaking the necessary

environmental application processes for the proposed development a chemical plant located on 110 Batoliet Road in Meyerton, within the Sedibeng District Municipality, Gauteng Province. The plant will have a footprint of 2.1ha and have a capacity of 30 tonnes of chemicals per day. We would like to request a pre-application meeting with GDARD as the identified competent authority for the application. May you kindly indicate the department's availability for the pre-application meeting so we can schedule accordingly as well as share the draft agenda for the meeting.

We would appreciate your swift response.
