Dear ***** I am writing as a community member affected by the proposed Vanadium Carbon Nitride (VCN) Furnace in the Emalahleni Local Municipality, Mpumalanga Province, South Africa. I would like to formally show my interest in participating in the Environmental Authorisation and Air Emission License amendment application process for this project The reason are as follows We believe it is essential for residents to voice their concerns and ensure several protective measures are in place. Specifically, we urge you to ensure proper pollution control, including managing emissions and dust, and to actively protect local water sources from threats such as acid mine drainage. Furthermore, we seek to influence the conditions surrounding this activity by requesting comprehensive health assessments and ongoing environmental monitoring. Our goal is to safeguard local health, the environment, and community livelihoods against any added burdens this industrial activity might introduce. Thank you for your attention to these critical matters. Best regards,
