# Health event raises awareness

An enthusiastic health promoter from the Welverdiend Clinic, Lebogang Molefe, was one of the health staff who helped spread awareness.

**Adele Louw**

The Gauteng Department of Health recently hosted a major awareness event in Khutsong to educate the public about Neglected Tropical Diseases (NTDs), some of which have already been detected in the local community.

The event, held at the open grounds near Khutsong Ext 3, highlighted a group of infectious diseases that often affect poorer and more isolated areas. These include malaria, dengue fever, leprosy, and bilharzia (schistosomiasis).

According to the Gauteng health department's assistant director for the expanded programme of immunization and communicable disease control, Yolandie Luther, rabies is currently the biggest threat to Merafong residents. Rabies is a fatal disease and has been reported in the region before. A primary cause of spread is the black-backed jackal, a known rabies carrier, which migrates through our area.

While the specific mosquitoes that carry malaria do not live in this area, many residents catch the illness while travelling and bring it back home. Because of this risk, the department confirmed that every clinic in the Merafong City Local Municipality is now equipped to test for and treat malaria. This is similar to Bilharzia cases occasionally picked up in our area, as these people were also infected elsewhere.

Luther noted that parents must ensure their children are dewormed and report unusual rashes to their nearest clinic.

Throughout the day, staff from various sections within the health department also assisted residents attending the event with screening.

These proud complementary medicine staff were also ready to assist the public. In front are Londile Mahlangwe (podiatrist) and Nkateleng Dlamini (chief occupational therapist). At the back are Mpimo Tshabalala (physiotherapist), Yanela Maname (physiotherapist) and Pfanelo Ndou (counsellor).

These friendly dieticians helped members of the public at clinics across the Merafong City Local Municipality. They are Sarah Makhunga, Batseba Maanaso, Phatludi Maoto, Koketso Mokoka, and Alfred Sekwele.
